\$1.00 PER YEAR.

## THE KLAN.

### Visitations of Night Riders are Reported from Many Places.

Hopkinsville, Ky., Jan. 26.—A band of about twenty-five Night Riders took Preston L. Rogers, aged 50 years, of the Era vicinity, from his home Saturday night shortly after midnight and whipped him because, it was alleged, he had sold his tobacco after pooling it with the association. Several shots were fired when the Riders first arrived. One report is that at least two bullets entered the house, one passing within an inch of one of Mr. Rogers' sons and buried itself in the mantel.

Eaton, O., Jan. 22.—The Night Riders appear to be spreading their operations farther and farther. Saturday night the tobacco barn of Joseph Miller, seven miles northeast of here, was burned, loss \$15,000.

Seven horses, farm machinery, eight acres of tobacco, 17 head of cattle and 60 hogs were lost. But \$300 in insurance protected Miller.

Tobacco growers are up in arms and believe that the depredations the Kentucky Night Riders are being repeated in this section.

Dawson Springs, Ky., Jan. 25.—Night Riders invaded this town at 12:30 o'clock this morning.

W. Heath from his room in the Arcadia Hotel, carried him across the Tradewater river and severely whipped him. Herth is putting up tobacco for the association, but the night riders accused him of buying a crop of tobacco from Harp Menzies, a grower of Christian county, outside the association and as an independent buyer which, it seems, is contrary to the rules of the organization. Mr. Menzies was recently waited on by the so-called "Night Riders" and taken out and whipped.

The Night Riders seem to have come from Caldwell county, which is just across the Tradewater river a mile west of the city.

### How to Cure Chills.

"To enjoy freedom from chills," writes John Kemp, East Otisfield, Me., "I apply Bucklen's Arnica Salve. Have also used it for salt rheum with excellent results." Guaranteed for fever sores, indolent ulcers, piles, burns, wounds, frost bites and skin diseases. 25c at H. D. Thornton & Co's drug store.

### Murder Mystery Solved.

The murder mystery which has upset the northern part of this county, near the Marshall county line, has been cleared up, and instead of discovering a brand new page for the annals of crime, the discoverers only unearthed one of several bodies which had been buried in times past.

The place where the decomposed body of the negro was found Saturday was formerly the site of a negro burying ground. The place has been deserted as a grave yard for several years and as Mr. Pinwell has only occupied the farm for three or four years, he and his sons were unaware of the fact that the cemetery was on the place.

An old negro who works on the place informed Mr. Pinwell Tuesday of the fact and said that the body uncovered by the boys was probably that of a negro who was killed in a runaway accident ten or twelve years ago. As the old negro described the

manner in which the victim of the runaway had been killed, his description tallied with the broken skull and leg of the body which was uncovered. Older residents remembered the incident. It is thought that the remarkable state of preservation of the body was due to the fact that the negro was a hearty drunkard while he lived and that the alcohol preserved the body until it was exposed more directly to atmospheric action by the wash of the recent rains, at which time more active decomposition set in.—Mayfield Monitor.

### Wise Counsel From the South.

"I want to give some valuable advice to those who suffer with lame back and kidney trouble," says J. R. Blanken ship, of Beck, Tenn. "I have proved to an absolute certainty that Electric Bitters will positively cure this distressing condition. The first bottle gave me great relief and after taking a few more bottles, I was completely cured; so completely that it becomes a pleasure to recommend this great remedy." Sold under guarantee at H. D. Thornton & Co's drug store. Price 50c.

### Hazel Happenings.

Genie Erwin has purchased the barber shop of T. H. Haley and has employed Ergot H. Edwards, a former proprietor, to take charge of the shop. Mr. Edwards is a fine workman and his many friends here will be pleased to know that he will be with us again.

Five mad dogs were killed on our streets Tuesday.

Dr. E. P. Mason and Albert Miller went to Nashville Thursday where Mr. Miller will take treatment for hydrophobia. Mr. Miller killed a mad dog for Everard Mason last Sunday and accidentally got some of the saliva of the dog in a small scratch on his hand. While it is thought by many that there could be no danger Mr. Miller thought it best to take no chances and decided to go and take the treatment.

Trial Catarrh treatments are being mailed out free, on request, by Dr. Shoop, Racine, Wis. These tests are proving to the people without a penny's cost—the great value of this scientific prescription known to druggists everywhere as Dr. Shoop's Catarrh Remedy. Sold by H. D. Thornton & Co.

### John Forrest's Funeral.

The funeral of John Forrest, who met an accidental death last Wednesday while assisting a neighbor in moving a crib, was held last Thursday at the Cherry church and was one of the most largely attended services ever held in the county. Cherry Camp W. O. W., assisted by other camps, was in charge of the funeral, and fully 120 loyal and true members of Woodcraft braved the cold wind to pay a last tribute to their deceased sovereign.

The camp went in a body from their hall to the residence and acted as an escort of the funeral cortege to the church; where Rev. J. C. Rudd delivered a very appropriate and impressive address. After the church service the body was laid to rest in the Cherry Corner Cemetery under the care and directions of the W. O. W.

### Card of Thanks.

To our many neighbors, friends and relatives we, father, mother, brother and sisters, wish to extend to you one and all our heartfelt thanks for your brotherly kindness and attention in our late, sad trouble. FOSTER FORREST AND FAMILY.

## FIRST SALES.

### Association Tobacco Began Moving and Much Interest is Felt.

Salesman C. A. Hood last week received the official grades on over two hundred hogsheads of association tobacco and the first hogshead of the 1907 crop was sold to Mr. J. D. Rowlett, the Murray manufacturer, and brought 11 cents. The hogshead was stored with the Peoples Warehouse.

Monday twenty hogsheads were sold from the Murray Warehouse and the prices ranged between \$10 and \$12.

The first sales of the season naturally attracted much interest and the prices realized infused life and vigor in the association interests.

### FROM THE ANTILLES.

Chamberlain's Cough Remedy Benefits a City Councilman at Kingston, Jamaica.

Mr. W. O'Reilly Fogarty, who is a member of the City Council at Kingston, Jamaica, West Indies, writes as follows: "One bottle of Chamberlain's Cough Remedy had good effect on a cough that was giving me trouble and I think I should have been more quickly relieved if I had continued the remedy. That it was beneficial and quick in relieving me there is no doubt and it is my intention to obtain another bottle." For sale by Dale & Stubblefield.

### Hardship on Carriers.

Postmaster Downs desires to call attention to the practice of some patrons of rural delivery of placing loose coins in their boxes each time they desire to dispatch letters instead of supplying themselves with postage in advance of their needs.

This practice imposes undue hardship on rural carriers in removing loose coins from boxes and delays them on the service of their routes.

The postmaster, therefore, urgently requests that patrons of rural delivery provide themselves and keep on hand a supply of stamps consistent with and in advance of their needs. It is also very desirable that rural patrons place in their mail boxes small detachable cups of wood or tin in which to place coins, when necessary, in purchasing supplies of stamps.

### Prizers Meeting.

The association prizers of Calhoun county held a meeting in the new salesmen here Wednesday. A majority of the prizers were present.

W. E. Frazier, of Guthrie, Assistant General Manager of the Dark Tobacco patch, was present and addressed the prizers on the manner of packing tobacco. He insisted that the prizers carry out their contract to the letter and encouraged and impressed on them to assort tobacco thoroughly and make as nice a job of packing in the hogsheads as could possibly be done.

Mr. Frazier brought out many good points in pricing and explained why every hogshead should contain the same kind of tobacco and conform exactly with the sample. The salvation of the association depends on the handling and pricing tobacco. A good record along this line has already been made and the association wants it maintained.

John D. Scales, auditor of the association, was also present and presented each prizor with a new record book which is to be kept by the prizers.

## WERE KILLED

### Regie Factory at Clarksville Saved from Destruction. Not Work of "Night Riders."

Clarksville, Tenn., Jan. 23.—An attempt was made Tuesday night to set fire and dynamite the loose tobacco factory of the Hayes-Sory Tobacco Company, local representatives of the Italian Regies, and two negroes, Tony Annen and Walter Watkins, alias "Frog Eye," were killed while trying to escape by one of the night watchmen. One other negro escaped, but is thought to have been wounded.

When an investigation was made it was found that the door of the factory had been saturated with coal oil and four sticks of dynamite placed about it. When the bodies of the two negroes were searched sticks of dynamite were found on their person in sufficient quantity to wreck the building.

The killing created much excitement here. The negroes killed lived in Clarksville and one of them had been employed at the Regie factory five years, but was discharged one week ago.

The February issue of The Ladies' World appears to cover the domestic interests pretty thoroughly, and in addition to have a large number of very entertaining stories by some of the best writers. Every time the publication comes to our table we marvel at the quantity and quality of matter given for fifty cents a year. Among the writers of adult fiction this month are Susie Bouchele Wright, Grace MacGowan Cooke, Katherine Grey (aka Wells), when a little girl, she ran away to go on the stage), Mildred Stapley and Roy Norton, while Livingston B. Morse brings to an end Dream Animals, the Animals, the cleverest stories for children that have appeared anywhere of late.

Economy is the watchword in the Household Departments, and this is certainly timely, and there are papers by specialists on the Secret of Good Looks. The Care of the Baby, Etiquette, etc., etc., besides a very novel Leap-Year Entertainment. The Fashion pages seem to be exceptionally good.

### Negro Killed.

Advises received from Hazel state that at an early hour last Thursday morning, Will Martin shot and instantly killed Charles Cody. Both participants are negroes, and the tragedy, which is said to have started over a woman, occurred about four miles west of Puryear. It seems that Cody was a hand at the clay pit and was enroute to work when he was overtaken by Martin, when a row occurred and Martin shot Cody five times, killing him instantly. Martin then made his escape and has not yet been apprehended.

### Outland Mill.

Health is very good in this locality at this writing. Rumor says there is to be another wedding right soon.

Sandy Outland and family visited in Murray one night the past week.

Tobe Adams and family spent the past week visiting friends on the Tennessee river.

Misses Ethel Gruffy and Lola Garner visited at Roy Outlands the past week.

Boaz Hendon gave the young folks a nice party a few nights ago which was enjoyed by all.

Mike Farmer has moved to the

place vacated by Mr. Cathey. Mr. Woodruff, of Murray, is repairing his house occupied by Frank Willoughby.

John Downy has moved to Mr. Jones where he will work this year. Will Hale will occupy the place vacated by Mr. Downy.

Homer Adams visited Mr. Parks near Linn Grove one night the past week.

Ed Adams will build some new houses right soon.

John Baker spent Saturday in Murray.

Joe Luter's children have whooping cough.

### BLUE BELL.

#### McDaniel.

Burning plant beds is the order of the day.

No deaths or marriages to report this week.

Rev. J. Mc. Pool preached at Bethel Sunday to a large audience.

Claude Miller is all smiles, it is a girl at his home.

The party at Nedem Colson's was well attended.

Curt McDaniel says it is a girl at his house.

The school at Center Grove is progressing nicely under the management of Miss Florence McCarter.

Miss Bonnie Calhoun is visiting Uncle Outland this week.

### 3,000 Hogsheads Graded.

At Guthrie last week the official graders inspected and fixed the grades on about 3,000 types of tobacco which were from hogsheads which had been prized over the district. As these grades were fixed a report was made to the salesroom from which they were sent and there the prices will be fixed according to the schedule adopted by the executive committee and the tobacco placed on the market.

### A Cure for Sciatica.

"Some years ago, while stooping over, I was taken with sciatica in my left hip, from which I was laid up, helpless, for over six weeks," writes Mrs. Julius Scott, of 10825 Columbia Avenue, Cleveland, Ohio. "I could not lie on my left side, and my left leg was swollen and became so much shorter that I had to wear five lifts put on my left shoe."

"Every winter for a number of years I was laid up in this way and suffered excruciating pain. I tried everything and all the consolation I got from people was that sciatica could not be cured."

"After trying everything else, as a last resort I got a dollar bottle of Sloan's Liniment and was amazed when I found that it gave me relief. I used a second bottle and the swelling went out of my leg and it was only necessary for me to use a part of the third bottle."

"Sloan's Liniment has certainly done wonders for me, and if you wish to refer to me you can do so."

### Almo, Ky.

Health is reasonably good at this writing.

No marriages to report this time.

Chas. E. Hatcher has his new house completed.

Almo is a hustling little place, there being two first class general stores, one hotel, one church, one association prize house, one black smith shop, saw mill, post office, express office, W. O. W. hall and one doctor.

W. W. Hood's little boy is right sick with the mumps.

Well I will ring off for this time and let us hear from all the correspondents. AUNT LUCINDA.

## "OLD PIDE"

### Interesting Article From One of The County's Progressive Farmers.

Tobacco, Ky., Jan. 25.

Ed LEDGER.

I want to say that I think you hit the nail on the head in your paper last week in the article headed "Old Pide Again," and that every man in this section who read it says "Amen" to it. I have been a citizen of this county many years and have taken the Murray papers a long time and I think the present editor of the Ledger comes rarer standing up for the people in the country than any editor that has ever been in the county. When he sees anything wrong and against the country people he is always found on their side, and generally when he says things people know just where he stands, and he always calls things by their right name. The people around here endorse what he says regarding the town cows. If we go to town and buy goods it does look like we ought to have protection from thieving old cows, and especially does it look like we are entitled to feed our own horses the corn and hay we take with us. I know one thing certain if you came to my house to buy my tobacco or other farm stuff I wouldn't let the cows rob your buggy, but instead I would take care of your stock for you. I don't expect the business men of town to treat me just that way but I do think the town council made a big mistake turning the cows loose on the farmers. It has not been long ago since I bought a buggy in Murray and paid hard cash for it. I owned it three months before the top was torn nearly off by a cow trying to get corn out of the back end of it and at the same time ruined a dollar's worth of sugar I had in the buggy. Such things as these may not worry the merchant who sold me the goods but I'll tell you it made me think considerable. And I am not the only man that has suffered as is well known by every business man in the town. It is a daily occurrence when the cows are allowed to run on the streets. I do not know who all the members of the town council are nor how they voted to repeal the law but I hear of some of the members being accused of voting to turn them loose who are merchants and I want to say they made a mistake in doing it. My guess is some of them will be sorry for their action in doing as they did. It is their business, however, to do as they please, and at the same time I want to say it is my business to do my trading where I please also.

I don't want to take up too much of your valuable space but I did want to say hurrah for Editor Jennings and to thank him for his article "Old Pide Again" and his loyalty to the tobacco association, and to say the people in the country endorse you in your stand.

Yours truly

ASSOCIATION FARMER.

The finest Coffee Substitute ever made, has recently been produced by Dr. Shoop of Racine, Wis. You don't have to boil it twenty or thirty minutes. "Made in a minute" says the doctor. "Health Coffee" is really the closest Coffee Imitation ever yet produced. Not a grain of real Coffee in it either. Health Coffee Imitation is made from pure toasted cereals or grains, with malt, nuts, etc. Really it would fool an expert—were he to unknowingly drink it for coffee. Sold by W. W. McElrath.

### The Badge of Honesty

Take every wrapper of Doctor Pierce's Golden Medical Discovery because a full list of the ingredients composing it is printed there in plain English. Forty years of experience has proven its superiority as a blood purifier and invigorating tonic for the cure of stomach disorders and all liver ills. It builds up the run-down system as no other tonic can. In which alcohol is used. The active medicinal principles of native roots such as Golden Seal and Queen's root, Sassafras and Minkroot, bloodroot and Black Cherry bark are extracted and preserved by the use of chemically pure, triple-refined glycerine. Send to Dr. R. V. Pierce at Buffalo, N. Y., for free booklet which gives extracts from well recognized medical authorities such as Drs. Bartholin, King, Scudder, Coe, Ellingwood and a host of others, showing that these roots can be depended upon for their curative action in all weak states of the stomach, accompanied by indigestion or dyspepsia as well as in all bilious or liver complaints and in all "stomach diseases" where there is weakness and gradual run-down of the strength and system.

The "Golden Medical Discovery" makes rich, pure blood and so invigorates and regulates the stomach, liver and bowels, and through them, the whole system. Thus all skin affections, blotches, pimples and eruptions as well as scrofulous swellings and old open running sores or ulcers are cured and healed. In treating old running sores, or ulcers, it is well to insure their healing by applying to them Dr. Pierce's All-Healing Salve. If your druggist doesn't happen to have this Salve in stock, send fifty-four cents in post-gold stamps to Dr. R. V. Pierce, Investigator of Medical and Surgical Medicine, Buffalo, N. Y., and a large box of the "All-Healing Salve" will reach you by return mail.

You can't afford to accept a secret nostrum as a substitute for this non-alcoholic, medicine of known composition, not even though the urgent dealer may thereby make a little bigger profit. Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules, easy to take as candy.

### FOR THE DESSERT

#### SOME CHANGES FROM THE ORDINARY DISHES.

##### Riverside Marmalade Made With Oranges and Lemons—Figs Pudding That Will Keep Well—Try Delmonico Pudding.

**Riverside Marmalade.**—Fruit of medium size, preferably Washington navel, are best for this attractive-looking marmalade. With a very sharp knife slice off the thick ends of six oranges and two lemons, and then cut in halves lengthwise. This is easily done by resting the flat side of the fruit on a board, holding it firm with one hand and slicing with the other, making half circle pieces, which look pretty in the finished product. Cover with two quarts cold water and let stand overnight. In the morning bring to a boil, cook 40 minutes, then add five pounds sugar well heated in the oven, and boil rapidly 20 minutes longer. If the oranges are very ripe the juice of two more oranges and six lemons is an improvement.

**Orange Fritters.**—Beat the yoke of four eggs with four tablespoonsful sugar until lemon-colored and thick. Stir into this the juice of a half lemon and add flour to thicken like batter. Add the stiffly beaten whites and dip in one slice of orange at a time. Take up with a large kitchen spoon, and fry in deep brown in butter or oil. Sprinkle pulverized sugar on top if you are going to serve them as a special course. Where they are served with broiled ham lessen the amount of sugar put into the batter and omit sprinkling the outside.

**Figs Pudding.**—This pudding is a great emergency dessert on an Arizona ranch. You can make quite a bit of it, and it will keep indefinitely, steaming up a little as needed. Chop dry figs, one pound; raisins and one cup nut. Add one teaspoonful cinnamon, one-half teaspoonful cloves, one can sugar, one cup sweet milk, one-half teaspoonful salt, one pint grated cornmeal, one cup butter, eggs. Mix well and steam three hours.

**Delmonico Pudding.**—Put one quart of milk in a double boiler and let come almost to the boiling point. Beat yoke of five eggs light, add six tablespoonsful sugar and beat again until exceedingly light. Mix three tablespoonsful cornstarch with a little cold milk. Add to the eggs and sugar, and stir into the hot milk just as it is about to boil. Add salt, one teaspoonful, salt, then stir until well thickened. Pour into a dish that can be sent to the table and stand in the oven for ten or 15 minutes until firm. Remove and spread over the pudding a layer of canned apricots or other fruit. Beat the whites to a stiff froth, allowing one tablespoonful pulverized sugar to each egg. Spread lightly over the top and put into a coolish oven to color a golden brown.

**Lemon Ice.**—Put one quart milk in a freezer until cold. Stir together the juice of three lemons and two cups sugar, add to the cold milk and freeze.

#### TO DESTROY MOTH MILLERS.

##### Naphtha is About the Most Effective Agent Known.

If moth millers be found be sure and kill them if possible, and look carefully for the eggs or worms. In every case where there is the slightest suspicion of their existence, pour naphtha all along the under edge of the carpet, having the windows open and no light or fire in the room.

To this with any stuffed furniture which may have traces of the moth about it. Nothing is cleaner or more effective than naphtha, but great care must be taken to have the windows open, that the gas may escape and there shall be neither a fire or a light in the room for several hours.

#### When Wall Paper is Torn.

When a hole has been made in the wall paper in moving a piece of furniture, if one has no paper like the one on the wall, a judicious use of water colors will work wonders. The water paper should be first straightened as nearly as possible and glued down. Then touch up the vacant space with the colors with paints the color of the paper at that place. The break will be almost invisible if the water colors are used carefully. Tiny tubes of water color paints can be bought at any artists' supplies shop.

#### Mint Punch.

Melt a cupful of granulated sugar in the strained juice of six lemons, then add three peels, and sliced lemons. Slice very thin. Leave all in a big bowl set in ice until just before serving. It cannot be too cold. Transfer to your punchbowl, mix is a quart of finely pounded ice. Stir for a moment and pour from a height of two feet upon the mixture three bottles of imported gin—the last, add a dozen sprays of green mint, washed and slightly bruised between the fingers.

#### Glass Jars for Bandages.

For a careful woman, who always has bandages on hand, there is nothing better to keep them in than wide-mouthed glass jars with tops that screw on. The pieces of old linen and cotton should be boiled in order to have them perfectly clean, then ironed and run into strips of different widths, and each strip neatly rolled; a number of these little rolls can be put into a one-quart sized jar and they are always ready for use.

### TURKEY OUR NOBLEST BIRD.

#### Crossing with the Wild Species to Improve Market Product.

The most notable American bird in the farm category is the turkey, growing as he does to the great weight of 30 and even 40 pounds, and losing nothing in flavor and toothsome. Likewise, the most regal of our remaining game birds, his blood brother, the wild turkey, from which he has descended.

There is perhaps no instance where domestication has scored so little in improvement as with the turkey. In fact, in some respects the taming and breeding have hurt instead of helped the species.

No prize domestic gobble is ever so beautifully marked or so resplendent with feathers of black shaded with rich bronze and illuminated with a tawny flush of burnished copper as is the typical wild turkey, while the vigor and vitality of the wild bird is such that to this day we strengthen the most virile of our bronze turkeys by an infusion of the wild blood.

Rhode Island stands for the best turkey production. The last census shows less than 7,000,000 turkeys in the United States and only about 5,000 produced annually in Rhode Island, yet, according to a turkey expert, if all the turkeys of the country were of such good quality as Rhode Island's, their total value would be doubled.

According to the department of agriculture, the growing of turkeys has greatly improved during the last few years as a result of a determined effort on the part of producers of "standard bred" stock to demonstrate that it is much more profitable to use pure breeding stock than the smaller and less vigorous stock of times past.

The wild turkey is also being used to infuse further new vigor into the domestic stock. Introducing is the fatal defect among the practice of many turkey growers.

#### Nineteen Hour Days.

"Our hours," said a nature student, "are nothing to the birds." Why, some birds work in the summer 19 hours a day. Indefatigably they clear the crops of insects.

The thrush gets up at 2:30 every summer morning. He rolls up his sleeves and falls to work at once. He never stops till 9:30 at night. A clean 19 hours. During that time he feeds his voracious young 200 times.

#### Senator Pettus' Library.

The late Senator Pettus of Alabama was a "Porter" and an overlander to California in the early days and engaged in placer mining. He took with him on that long and tedious journey three books, the Bible, Shakespeare and Burns' poems.

He said of them at one time not long since: "I read the Bible from cover to cover; I read the notes; I read the captions of the chapters; I learned great parts of it by heart, and I haven't forgotten them yet. I learned many of Burns' poems by heart and much of Shakespeare in the same way." Such reading of these three books was an education in itself. It is not likely that many miners engaged in that search for wealth spent their leisure in as profitable a way.

#### Cockhawk's Changing Plumage.

I know no bird which passes through so many changes of plumage and color of eyes as the cockhawk. A young one which I have mounted is about the size of a small hen and is covered with white down. His eyes are pale blue. I colored the eyes exactly from life. When fully grown the first plumage is dark brown above and the eyes are pale yellow. No one would be likely to suspect this being a cockhawk who had only seen adult birds.

Later it changes to the dark shaly blue of the adult, and the eyes, after passing through all the intermediate changes in color from straw yellow, orange yellow and pink, finally assume the deep rich red of the adult.

#### Long Overdue.

"What?" queried the very young man, "was the happiest day of your life?"

"It hasn't come yet," answered the oldest inhabitant, sadly.

"Hasn't come yet?" echoed the other in surprise. "When do you think it will come?"

#### When people cease to ask fool questions," answered the old man.

#### He'd raised So Often.

"Mr. Timm had asked if he might call tonight. I think he wants to tell me that he loves me," said Miss Yerner.

"Oh," replied her sister, "that goes without saying."

"Yes, and I'm afraid that he will, too."

### MILK FROM WHALES.

#### A NEW FOUNDLAND SCIENTIST HAS AMPLIFIED DAILY.

##### Perfects Device for Milking 3½ Quarts Cattle—Yield Five to Seven Quarts a Day.

Not the least of the triumphs of modern scientific methods in man's utilization of natural resources is forecast in the brief announcement just received from the British whale fisheries of Port-au-Prince, N. F., to the effect that Prof. Muller has succeeded in domesticating a herd of 50 sulphur-bottom cow whales and has perfected an apparatus for milking the mammoth cetaceans.

The yield of milk from a full-grown whale is from five to seven quarts a day. The milk is fresh and sweet and peculiarly rich in nutritive and medicinal qualities. It is much thicker and richer than the best Jersey milk and possesses a peculiarly pleasant and distinctive flavor which those who have tasted it pronounce superior to any known product of the lacteal variety. Chemical analysis has shown that the milk of the sulphur-bottom whale is rich in those same fats and proteins which give to cod-liver oil its value as a remedial food.

Prof. Muller's experiments with whales, which have been carried on in comparative secrecy for several years, have resulted in many remarkable discoveries in the line of utilizing the different parts of the huge cetaceans which have hitherto gone to waste.

He has devised a process for curing and preserving the tons of meat which has always been considered waste and valueless. This meat, which compares favorably in texture and flavor with the average beef, will soon be put upon the market. The company has assurances that it will find ready sale in the West Indian islands and other tropical countries which now depend for their meat supply on the South American jerked beef.

Prof. Muller has invented and patented a process for making leather from the intestines, pleural sacks, heart coverings and other internal membranes of the whale, when tanned and finished, is of greater durability and more pure than any known leather. Besides its superior quality, the whale leather furnishes single pieces of much greater dimensions than is possible to procure from any other animal. It is possible, according to the inventor, to obtain from the intestines of a full-grown sulphur-bottom a strip of leather nearly 300 feet in length and three and one-half feet in breadth. From the pleural lining a piece of leather 25 feet in diameter can be obtained.

Processes for grinding the mammoth skeletons into bone meal for fertilizer and of converting the gristle and cartilage into skin and like products are among the novel inventions of the expert, who has selected himself for the past five years at the little fishing village and turned his attention to the study of whales.

But by far the greatest triumph yet attained by the crusty professor lies in the domestication of the cow whale. Like all scientific men, Prof. Muller would rather conserve than destroy. The whales are still abundant in Newfoundland waters, but under the old system of killing them for their blubber and casting the carcasses adrift, it was a question of only a few years at most when they would become so rare as to make their pursuit unprofitable. It will now be for the financial interest of whalers to capture the young whales and keep them alive, because of the promise of richer reward from the dairy products than can be realized in their destruction.

The problem of teaching them to permit the operatives to milk them was a more difficult one. An apparatus was devised to do the work, but when an effort was made to try it there was trouble at once. It was necessary to drive the whales up on the fats at low water to do the milking and it has been this part of the work which has absorbed the attention of the professor for more than a year.

Patience in the face of all discouragements was a determination to succeed. Finally conquered. The first calves learned gradually to go of their own accord to the milking ground. The herd has been increased a few whales a time until it now numbers 50 and it requires the services of a staff of 60 men to carry on the daily milking.

Just what the plans of the company are is not generally known and none of the officials will say. It was learned on good authority, however, that as soon as the dairy experiments in the way of butter and cheese making are complete and the canning plant is ready the herd will be driven down to an inlet on the Maine coast, which has been fitted for a pasture. There the dairy will be established permanently.

Experiments have been made recently in permitting several of the calves to go outside the inlet. These experiments have been peculiarly gratifying. In every instance the cow has returned, indicating clearly her preference for domestic life, and on two occasions occasional cows of the herd have brought back with them strange companions. The strangers are now thoroughly domesticated and have become valuable members of the herd.

If it is now believed, the whale milk is of rare medicinal value and proves to be a palatable substitute for the famous cod-liver oil. It is easy to see the possibilities which lie in the new industry of whale culture. The butter and cheese products are said to be of exceptional delicacy.

#### Why When Needed.

Good luck has a way of bestowing her favors where they are not needed.

## S.S.S. FOR BAD BLOOD

The most important part of the human system is the blood. Every muscle, nerve, tissue, bone and sinew is dependent on this vital fluid for nourishment and strength necessary to maintain them in health and enable each to perform the different duties nature requires. Even the heart, the very "engine" of life, receives its vigor and motive power from the blood. Since so much is dependent on this vital fluid it can very readily be seen how necessary it is to have it pure and uncontaminated if we would enjoy the blessing of good health. Bad blood is responsible for most of the ailments of mankind; when from any cause it becomes infected with impurities, humors or poisons, disease in some form is sure to follow. Muddy, sallow complexion, eruptions, pimples, etc., show that the blood is infected with unhealthy humors which have changed it from a pure, fresh stream to a sour, acid fluid, which forces out its impurities through the pores and glands of the skin. A very common evidence of bad blood is sores or ulcers, which break out on the flesh, often from a very insignificant bruise or even scratch or abrasion. If the blood was pure and healthy the place would heal at once, but being loaded with impurities, which are discharged into the wound, irritation and inflammation are set up and the sore continues. Bad blood is also responsible for Anemia, Rickets, Malaria, etc., the weak, polluted circulation cannot furnish the nourishment and strength required to sustain the body, and a general run-down condition of health results. S. S. S. is nature's blood purifier and tonic; made entirely of healing, cleansing roots and herbs. It goes down into the circulation and removes every particle of impurity, humor or poison that may be there, restores lost vitality, and steadily tones up the entire system. It adds to the blood the healthful properties it is in need of, and in every way assists in the cure of disease. S. S. S. neutralizes any excess of acid in the blood, making it fresh and pure, and permanently cures Eczema, Acne, Tetter, and all other skin diseases and eruptions. S. S. S. cures Rheumatism, Catarrh, Sores and Ulcers, Malaria, and all other diseases or disorders arising from bad blood. Book on the blood and any medical advice desired free to all who write.

Your S. S. S., in my opinion, is as good a medicine as can be had; it simply cannot be improved upon as a remedy to purify and enrich the blood and to invigorate and tone up the system. This spring my blood was bad and I was run down in health, and having seen your medicine highly advertised I commenced its use. Today my blood is in fine condition and my general health is of the best. Am filling position as foreman for a large concern here, and I feel not in good physical condition would be impossible for me to fill the place. Your S. S. S. has been of great service to me and I do not hesitate to give it the credit it deserves.

### Murray Graded School, Murray, Kentucky.

Large, elegant new building recently completed. New furniture and equipments. A school that gives fine mental and moral training. High School course very comprehensive and thorough. Courses in music and book-keeping. A normal department under the direction of the Principal, who has had long successful experience in large normal schools and colleges; three capable assistants; specialists in the branches they teach. Review work for teachers' certificates begins Monday Dec. 30th and continues five months. Large non-resident patronage of well pleased pupils. Last year more positions than we could fill were offered to our pupils. Valuable medals and prizes to be awarded in different departments at close of present year. Expenses moderate. For further information, address:

### Wm. Thurman, Principal.

### SMITH & COCHRAN,

### PRIZERS FOR THE ASSOCIATION.

We have rented the large tobacco factory of R. Downs and are prepared to prize your tobacco to the very best advantage. Both members of the firm have had several years experience in handling tobacco, and are sure we can prize your tobacco as well as any one. We will have with us experienced men to class and pack, and will look after your interests from the time your tobacco is received until it is sold and you get your money. Your tobacco will be bulked in bins and taken care of and worked according to turn. If delivered early it will be prized early. Come to see us when in town. Thanking you in advance for a share of your business, we remain,

Very respectfully,

### SMITH & COCHRAN.

### Wall Paper, Paints,

### Paints, Wall Paper.

Either are both, we handle as good grade as can be found in the count. Do you own building, see our goods before spending our money with the individual who has no better guarantee than broad, big-sounding statements.

### H. D. THORNTON & CO.,

### MURRAY - - - KENTUCKY.

## The Murray Ledger

O. J. JENNINGS, Editor and Owner.

Entered at the postoffice at Murray, Ky., for  
second-class matter, March 1, 1908.

The deadlock continues in the legislature. There has been no material change in the vote, and Beckham is still short a few votes necessary to elect him to the United States Senate.

W. G. Miller, chairman of the tobacco association in Marshall county, has filed suit in the circuit court of his county against John Seibert, an association member, for selling his pooled crop to the American Snuff Co. Over in Christian county they use a simpler and more effective remedy.

Two sensational bills were introduced in the Legislature last week, one in the Senate by Senator Brown and a bill exactly the same in the Lower house, requiring a license of \$50 per acre on all tobacco that is raised in Kentucky during the year 1908. These bills created some excitement and there is a chance of their becoming laws.

Say, on the square, dear readers, do you know there's no end of fun in minding your own business, and it makes people like you better, too. It's better to have others stuck on you than to be stuck on yourself. Don't knock; don't get stubborn; don't roast—just jolly. Everybody likes to be jollied. Be a good fellow—it's dead easy. Help your

## C. E. Farmer & Co.

### PRIZERS FOR ASSOCIATION

We have rented the B. F. Clayton tobacco factory on Main street west of railroad. We have had years of experience in handling tobacco and are sure we can handle your tobacco as well as anyone. We will store tobacco anywhere the farmer wants it stored. Hoping to share a portion of your business, we remain,

C. E. FARMER & COMPANY

self along; push your friends with you. No man ever helped himself by knocking other people. You can't climb the ladder of fame by stepping on other people's corns—and they are their corns, not yours—and they are tender. Help everybody; get hold with both hands when there is a chance to help your town. Bury your hatchet; drop your tomahawk; hide your little hammer. Be a booster.

The city council at its meeting last Friday night again amended the stock ordinance by requiring owners of cows to keep them off the streets at night. Wert Al-

derson says this action was taken upon his advice, as he had informed members of the council that unless such action was taken he was certain to run over somebody's cow and kill her if the night riders ever came to Murray. This will also be of vast benefit to Barto Bailey, as he comes to town very often after night with his old, gray "Beck" hooked to a buggy. However, Barto was never known to carry anything in his buggy that his mule or a cow could either eat or drink. Personally he has a preference for bonded food and stock will not eat it.

## BY REQUEST

Recipe is Easily Prepared at Small Cost, and Many Swear By It.

Mix the following by shaking well in a bottle, and take in teaspoonful doses after meals and at bedtime:

Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. A local druggist is the authority that these simple, harmless ingredients can be obtained at nominal cost from our home druggists.

The mixture is said to cleanse and strengthen the clogged and inactive kidneys, overcoming Backache, Bladder weakness and Urinary trouble of all kinds, if taken before the stage of Bright's disease.

Those who have tried this say it positively overcomes pain in the back, clears the urine of sediment and regulates urination, especially at night, curing even the worst forms of bladder weakness.

Every man or woman here who feels that the kidneys are not strong or acting in a healthy manner should mix this prescription at home and give it a trial, as it is said to do wonders for many persons.

The Scranton (Pa.) Times was first to print this remarkable prescription, in October, of 1906, since when all the leading newspapers of New York, Boston, Philadelphia, Pittsburgh and other cities have made many announcements of it to their readers.

## MEN THAT ARE POISONOUS.

Physician's Demonstration That Convicted Hard Smoker.

"You smoke 20 cigarettes a day?"

"Yes, on the average."

"Yet you don't blame them for your rundown condition?"

"Not in the least. I blame my own work."

The physician shook his head. He studied in a wordy way. Then he took a leech out of a glass jar.

"Let me show you something," he said. "Bare your arm."

The cigarette fiend bared his pale arm, and the other laid the leech black leech upon it. The leech fell to work busily, its body began to swell. Then, all of a sudden, a kind of shudder convulsed it, and it fell to the floor dead.

"That is what your blood did to that leech," said the physician. He took up the little creature between finger and thumb. "Look at it," he said. "Quite dead, you see. You poisoned it."

"I guess it wasn't a healthy leech in the first place," said the cigarette smoker sullenly.

And the physician clapped two leeches on the young man's thin arm.

"If they both die," said the patient, "I'll swear off—or, at least, I'll cut down my daily allowance from 20 cigarettes to 10."

Even as he spoke the smaller leech shivered and dropped on his knee dead and a moment later the larger one fell beside it.

"This is ghastly," said the young man. "I am worse than the pestilence to these leeches."

"It is the cigarette oil in your blood," said the medical man. "All cigarette fiends have it. Smoke reasonably and this oil will disappear, and you will be no longer deadly to the leech. Furthermore, your appetite will return, you will sleep better, and your muddy color will clear up. It is not hard work but hard smoking that has brought these troubles down on you."

"Dec," said the young man, regarding the three dead leeches thoughtfully, "I half believe you're right."

A Fine Graduating Present.

A woman went into a Broadway florist's store one day not long ago to buy some flowers for a sweet girl graduate.

"I want to get some flowers for a year," lady who is to graduate to-morrow," she said. "What have you?"

"How would some American beauties do?" asked the florist.

"What are they worth?"

"The best are seven dollars a dozen."

The woman thought a moment. "Have you none cheaper?" she asked.

"We have them for 50 cents a dozen and 75 cents a dozen."

"Would you mind do for a graduation present?"

"Yes, indeed."

"Will you tie them up with ribbon?"

"Yes."

"Will you mix the colors?"

"Yes."

"Well," said the woman, after a moment's hesitation, "you may give me a red one and a white one."

The florist gasped. "Shall I put them in separate boxes?" he asked.

Absolutely Pure

From Grapes, the most healthful of fruits, comes the chief ingredient of

# ROYAL BAKING POWDER

The only baking powder made from Royal Grape Cream of Tartar

Cuts a little more than the injurious alum or phosphate of lime powders, but with Royal you are sure of pure, healthful food.

## A. C. SMITH. T. L. SMITH. A. C. SMITH & SON ASSOCIATION PRIZERS.

We have rented the large factory of J. D. Rowlett, two miles east of New Concord, and are now ready to receive and prize tobacco pledged to the association. We have ample room for handling a large amount of tobacco, and are prepared to prize your tobacco to the very best advantage. Both being experienced tobacco men, having been in this business for quite a number of years, and handled association tobacco for two years, will have experienced help to class and pack your tobacco any look to your interest until tobacco is sold and money in your hands. We are not connected with any warehouse, but do advocate one storage house, as it is almost impossible to store with more than one house for this reason: Jones wants to store with the Peoples Warehouse, "Smith" with Murray Association House and "Williams" with the W. D. W. Co., at Paducah. If all their tobacco matches and was packed in the same hoghead box could all be pleased? We think best to store with the W. D. W. at Paducah, because Paducah market has many advantages over the Murray market. If you want information concerning this statement please call on us. Thanking you in advance for a share of your patronage, we remain, Yours truly,

## A. C. SMITH & SON

## Tobacco Association PRIZER.

I will work association tobacco in Murray in the building known as the old pants factory, south of the R. Down brick factory, near depot. I have no other business, and will give my whole personal attention to the classing, grading and selling of your tobacco. I assure you that I will get you the highest price for all tobacco entrusted to my care, and as quick sales as any one. Call and see me when in town. Yours to command,

## B. C. VEALE.

Store your tobacco where you wish, that does not concern me. I am not running a warehouse and only ask for a share of the pricing business.

Mrs. Annie Griffith left last Sunday to meet her husband in Memphis, Tenn. Mr. Griffith has been in Hot Springs, Ark., for the past few weeks for his health. They will again locate in Memphis.

Carrie Nation

certainly smothered a hole in the barrens of Kansas, but Ballard's Horsebound Syrup has smashed all records as a cure for coughs, croup, influenza and all pulmonary diseases. F. C. H., Horton, Kansas, writes: "I have never found a medicine that would cure a cough so quickly as Ballard's Horsebound Syrup. I have used it for years." Sold by Dale & Stubblefield and H. D. Thornton.

Gillis Wilkinson Millinery Co. will save you money if you will see them before you buy your hat.

Panacea for blues—The Ledger.

Phillips & Robertson, who have been conducting a confectionery and cafe here for some time, Tuesday turned their entire stock of goods and fixtures over to Sheriff Edwards to be sold for the benefit of their creditors. We failed to learn the amount of their liabilities.

The city council at its meeting last Friday night granted local chapter U. D. C.'s a license to conduct a skating rink in Murray. As quickly as a suitable building can be secured the rink will be put in operation. The council is to be congratulated upon its action in donating the license fee, which is \$100 per year, to the chapter, and the Ledger is glad to see additional places of amusement opened for the entertainment of the young folks.

Cherry-Tolu is the best for cough and colds. Large bottles 25c.—CORNER DRUG STORE.

## No Change Necessary In Rexall Remedies

The new Pure Food Law requires every patent medicine manufacturer to tell just what dangerous drug is in his medicine. Certain periodicals interested in patent medicine reform have declared that the formulas of many patent medicines will have to be changed before the manufacturers will dare conform with this law. These periodicals also declare that the public will never know of these changes, and never know what these remedies formerly contained.

This suspicion, however, cannot rest upon Rexall Remedies. You have absolute proof that Rexall Remedies have not been changed to conform with the new Pure Food Law, because you knew the formulas of these remedies four years ago! The Rexall formulas were never secret. The thousand Rexall druggists have always known all the Rexall formulas and given them to every customer who asked for them.

No one Rexall Remedy was ever claimed to be a "cure-all"—each of the 300 remedies is designed to cure a certain human ill—and does it. These 300 remedies were selected from among thousands because they were the most reliable and successful cures in the world. Far from wishing to conceal the formulas of these remedies, we are proud to tell just what they are, and always have been.

That's where the Rexall plan goes further to safeguard you than does the Pure Food Law. Even now you'll only know the dangerous drugs in other patent medicines, while you have always been able to know the complete formulas of Rexall Remedies!

The Rexall guarantee has been the greatest evidence of the sincerity back of the Rexall Remedies. For four years Rexall druggists have offered to return the money to any one who brought back an empty Rexall bottle or package and said they were not satisfied.

We, as one of the Rexall druggists, feel a genuine satisfaction in having been able to supply this community for four years with one line of medicines which the United States Government by its new Pure Food Law shows were always made right and sold right, and have deserved every bit of the faith you have had in them.

The Pure Food Law may necessitate changes in other patent medicines, but it only endorses Rexall Remedies.

## DALE & STUBBLEFIELD, Druggists

The Rexall Store

A few of the 300 famous REXALL Remedies, one for each human ill, are:

### FOR CATARRH—MUCO-TWIS

## Are You Sick?

Much sickness is due to a weak nervous system. Yours may be. If it is, you cannot get well until you restore nerve strength. Your nervous system is nature's power house; the organs of your body get their power from it. If the power is not there, the action of the organs is weak, and disease (sickness) follows. Dr. Miles' Nervine cures the sick because it soothes the irritated and tired nerves and gives the system a chance to recuperate. Try it, and see if you do not quickly feel its beneficial effect.

"I was given up to die by a leading doctor. Got one of Dr. Miles' Nervine and found that Dr. Miles' Nervine did my case. From the very first dose I took, I got better. I am better now than I have been for years, and do all my own work on the farm. That's what Dr. Miles' Nervine has done for me and I am glad to recommend it to all others."

JOHN JAMES, Riverton, Neb.

Your druggist sells Dr. Miles' Nervine, and we authorize him to return price of first bottle (only) if it fails to benefit you.

Miles Medical Co., Elkhart, Ind.

## Watkins' Remedies.

To the citizens of Calloway Co.: I have moved south of public square just south of Baptist church. Look for sign and when in town call at my home and get J. R. Watkins remedies that has stood the test forty years and are used by thousands of families.

Try his stock and poultry tonic. See if it don't pay you. I will be adjoyr homes as soon as possible, wait for me. Thanking you for past favors, yours

B. F. Johnson.

Independent Cumberland  
Phone 32 Phone 10.

E. P. PHILLIPS,

ATTORNEY-AT-LAW.

Rooms 1 and 2 Masonic Building  
(over Wear's drug store)  
Will practice in any Court in the State.

Cures Colds, Croup and Whooping Cough

## TABLE DELICACIES

WORTH TRYING FOR CHANGE IN  
THE MENU.

Cocoa Cookies Popular with Those  
Who Have a Sweet Tooth—Ex-  
cellent Plum Pudding Sauce  
—Good Summer Cutlets.

Cocoa Cookies.—Cream half cup of  
butter with three-fourths cup of  
sugar. Add one beaten egg and one-  
fourth cup of sweet milk. Sift to-  
gether with two cups of flour, one-  
fourth teaspoonful of salt, two tea-  
spoons of baking powder, four tea-  
spoons of dry cocoa, and one teaspoon  
of cinnamon. Combine wet and dry  
mixtures. Bake 15 minutes in hot  
oven.

Grape Jelly.—To seven pounds of  
grapes add a double handful of jelly  
crabapples. Make the jelly in the  
usual way. It will be firm and retain  
its shape when turned out of the mold.

Plum Pudding Sauce.—Cream to-  
gether a cupful of sugar and half a  
cupful of butter. When light and  
creamy, add the well beaten yolks of  
four eggs. Stir into this one wine-  
glass of brandy, a pinch of salt, and  
one large cupful of hot cream. Heat  
this mixture well. Place in a sauce-  
pan over a fire and stir it until it  
cooks sufficiently to thicken like  
cream.

Tea Rolls.—One quart of flour, one  
teaspoon of warm milk, half a teaspoon  
of good yeast, two eggs, level table-  
spoonful of sugar, salt to taste. Mix  
into a soft dough at nine o'clock. Let  
it rise well, knead thoroughly, and  
make two small rolls, sprinkle slight-  
ly with warm water; set to rise again,  
and bake quickly.

Mother's Muffins.—One-quarter cup  
melted butter, add two eggs, one  
tablespoon sugar, pinch of salt, beat  
together one teaspoon sweet milk, two  
cups flour, two teaspoons baking pow-  
der.

Summer Cutlets.—Take half a dozen  
small cutlets of lamb and stew until  
thoroughly done. In good stock with a  
plentiful supply of soup vegetables.  
Take them out and weight them down  
with a board until cold. Brush over  
with glaze and ornament on one side  
with pretty colored vegetables, cut in-  
to thin strips and arranged to form a  
lattice pattern. Make a salad of the  
cold boiled vegetables with peas to  
predominate, and heap it in a dish.  
Lay the cutlets around the edge with  
the ornamented side up and garnish  
the top with chopped aspic jelly.

Simple and Attractive Salads.

An odd and pretty salad is made  
of celery and apple. Instead of the  
usual cressets and cubes, the celery  
and apple are cut in long, narrow  
straws, mixed lightly with mayon-  
naise, and garnished with a fluffy bor-  
der of watercress. Another salad is  
potato and tomato. The freshly  
cooked potato is cut in very small  
pieces, placed in a bowl with a slice  
of onion. A French dressing is poured  
over while the potato is warm and  
whole allowed to stand for two hours  
in a cool place. When ready to serve  
a fresh tomato is sliced, carefully  
sliced, and placed with the potato  
mixture, and a large spoonful of  
cooked dressing, to which whipped  
cream has been added, placed on top.

Codfish Balls.

Pare six potatoes of medium size,  
and cut in quarters. Put one cup of  
raw salt codfish, picked into small  
pieces, above the potatoes in a sauce-  
pan. Pour boiling water about the  
potatoes, and cook until tender. Drain  
off the water and set in a sauce-pan  
covered with a cloth, on the back of  
the range, to dry the potatoes. Mash  
thoroughly, and add pepper to taste.  
Beat an egg until white and yolk are  
well mixed; add gradually a little of  
the fishball mixture, and when well  
blended return to that in the sauce-  
pan, and beat thoroughly. Shape into  
balls and fry in deep fat, smoking  
hot. It is best to use a frying basket  
for this.

Quick Pickle.

Two quarts of cabbage, one quart  
of tomatoes, one pint of onion, one  
pint of green pepper, with the seeds re-  
moved. Chop fine and mix thoroughly.  
Let stand all night, covered, then  
put in a colander or in a muslin bag  
and press out all the liquid. Season  
with a tablespoonful each of ground  
mustard, ginger, cinnamon, cloves,  
salt and celery seed. Cover with two  
quarts of vinegar, cold, and boil steady-  
ly until the vegetables are clear and  
tender. The pickle will be ready for  
use as soon as cold. To yellow the  
pickle the two cimes of tumeric in a  
muslin bag and cook with it.

Chicken Chateaufort.

Chop very fine a cup of cold cooked  
chicken, add two saucers or six table-  
spoonfuls of cooked ham, chopped;  
three tablespoonfuls of bread crumbs,  
one tablespoonful of capers, two table-  
spoonfuls of lemon juice, a dash of  
cayenne, two eggs, well beaten, and  
enough hot soup stock to make it  
quite moist. Butter a small mold and  
pack the meat in closely, leaving  
space at the top to allow for swelling.  
Steam one hour.

French Rice Pudding.

Weigh a quarter of a pound of rice,  
and put it into a pint of milk. Let it  
simmer until soft and all the milk is  
soaked up. When nearly cold, add  
one ounce of butter, the yolks and  
whites of three eggs, a little sugar,  
and the grated rind of a lemon.  
Mix all well together. Butter a  
plain mold and sprinkle cracker  
crumbs thickly over the butter, then  
pour in the rice, bake one hour, turn  
it out of the mold and serve hot.

## BEES MAKE FRUIT GROW.

Honey the Least of the Profits from  
Busy Insects.

Honey producing is only one of the  
missions of the bee. Indeed, for actual  
profit, the honey is but a minor item.  
Some years ago I moved to a small  
place up the Hudson river. I wanted  
a bee farm and selected for that pur-  
pose a spot among apple, cherry and  
plum trees, some of which had never  
borne fruit, others none for years  
past. My landlord told me I might cut  
down certain trees, as they were  
worthless, and he intended putting  
out some fine nursery stock.

Being busy I did not cut the trees  
down. They blossomed freely and of  
course we paid no further heed to  
them than to break blossoms by the  
armful when we wanted doral deco-  
rations.

The cherry trees were, much to the  
owner's astonishment, loaded with  
very large, perfect fruit. He could not  
understand it; such a thing had not  
happened for years.

Early in the autumn while waiting  
for a swarm of bees to settle I ob-  
served a number of fine apples upon  
one of the smaller condemned trees.  
When the landlord's attention was  
called to them he was completely mys-  
tified and called in his neighbors to  
see the wonder.

Later we gathered from this tree  
nearly a barrel of the finest fall pip-  
pings ever seen in that vicinity.

No argument would convince the  
man that "them pesky bees" had any-  
thing to do with the yield of fruit on  
the place. He insisted that some sort  
of fertilizer must have been used.

Since that time I have demonstrated  
by scores of experiments that trees  
which had for many seasons borne lit-  
tle or no fruit, or possibly none at all,  
have been brought up to a high stand-  
ard of productiveness by the presence  
of bees. They carried the pollen, fer-  
tilized the blossoms and a bountiful  
harvest was the result.

Regardless of the honey crop, every  
fruit grower should have a few col-  
onies of bees. If when the bloom sea-  
son is past there is so little nectar in  
midseason flowers that the bees must  
be fed it is a decided economy to feed  
them, as in cases where a strict ac-  
count has been kept the cash value of  
orchard products alone has been  
doubled by their assistance.—Subur-  
ban Life.

No Fences in Belgium.

In beautiful Belgium there are no  
fences. Neither are there hedges, as  
in England. The boundaries of the  
fields are raised up by fairly high  
earth banks, and the roads are cut  
out of them, as it were, so that when  
you are walking in the country you  
are down in a sort of valley, with low  
green banks on either side of you.  
The things that are chiefly culti-  
vated in Belgium are the beet root, for  
which the cheaper kind of sugar  
you know, and you can see field upon  
field of their reddish-green leaves  
stretching on either side of you as  
you walk along.

Flax is also much grown over there,  
and in summer time the fields are  
such a pretty sight when the pale blue  
flax blossoms are out in full bloom.

Belgian asparagus is also renowned  
all over Europe. It has white instead  
of purple-green tips, like our home-  
grown asparagus.

Women Who Write at Home.

About one woman in 100 keeps up  
her music after marriage, although  
they may have passed years of their  
youth time and spent many dollars be-  
longing to their fathers in study. The  
number that drops off in art is even  
greater, but writing has a fascination  
difficult to resist. A great deal of the  
writing done by women comes from  
homes, more or less comfortable and  
happy. Much of it is the kind not  
easily duplicated and it would be non-  
sense to compel such women to forget  
their talents. Many a son has been  
fitted for his life work by the ability  
of his mother to earn money at a  
steady rate.

Holland's Queen Domineering.

Holland's queen, Wilhelmina, has ex-  
alted notions of her royal authority.  
She is said to interfere in a most per-  
sonal way with the conduct of Dutch  
foreign relations. She looks upon the  
Dutch colonies as, in some sort, the  
private appanages of the house of  
Orange. Her prodigious personal popu-  
larity with every class of her sub-  
jects saves her from some of the con-  
sequences of her unconstitutional ten-  
dencies.

Mount McKinley's Difficulties.

In mountain climbing the world  
over the climber usually arrives fresh  
and unfatigued at the base of the  
peak he wishes to storm, and as a rule  
begins his ascent at a high altitude.  
On Mount McKinley, as described by  
a writer in Outing, it is the opposite.  
There are 25 miles of rugged foothills  
and glaciers to be crossed—with  
heavy packs—before the base of the  
mountain is reached, and then the  
climber is confronted by 18,000 feet of  
rock and ice.

Surely Heated.

Blotches—He's a hot-headed individ-  
ual, isn't he?

Slobs—Hot-headed? Why, that fel-  
low is so hot-headed that he has to  
wear a stove-pipe hat in midsummer.

And Yet, They Make Fun of Them.

Mr. Fogey London—What causes  
the delightfully clear weather you  
have in New York?  
Mr. Manhattan—Skyscrapers, dear  
boy.—Life.

## DESIGNS IN MAUVE

ONE OF THE MOST POPULAR COL-  
ORS FOR DECORATION.

Properly Carried Out, It Will Add  
Charm to Any Room—Hint as to  
Oriental Rugs—For the Win-  
dow Shade.

Mauve is becoming a popular color  
in decoration, but it is a color to be  
wisely and discreetly chosen on ac-  
count of its propensity for not lighting  
up well. It is a day color, rather than  
one for artificial light, but if carried  
out in the proper manner and accord-  
ing to certain canons of taste, a mauve  
drawing-room or boudoir may be made  
a place of undeniable beauty and  
charm. The floor and woodwork  
should be stained dark, to afford the  
best setting for a plain mauve wall pa-  
per, with figured chintz curtains in  
some of the new art designs or in the  
stiff old-fashioned flower patterns  
with a dash of pink or yellow in the  
groups of blossoms. A striking chintz  
with a mauve ground had a large  
white iris conventionally treated.  
Striped curtains in two tones of lavender  
or green look well with either a  
plain or figured wall, but the se-  
verely plain hangings should only be  
used in conjunction with a figured  
wall paper. These come in lovely  
patterns—wistaria, violets, iris and  
trollis designs, making choice a diffi-  
culty.

In purchasing oriental rugs be sure  
to avoid a certain kind made from  
goats' hair if you are sensitive to  
odors. In damp weather these rugs  
grow decidedly unpleasant, and nothing  
but several days in the sunshine  
seems to tone them up again. Age  
does not affect this peculiarity, al-  
though it tends up the price of the  
carpet. Nor can one usually detect  
any disagreeable smell in the shop,  
where the stock is kept aired and  
dried.

Window shades are often rather ex-  
pensive things to replace, and yet they  
soil very quickly. Many housewives  
will be glad to know they can be made  
out of Indian Head cotton, which can  
be had for ten cents a yard. Fasten  
the material straight across the old  
rollers—or buy new ones—with many  
tacks, stretch a wide enough hem at  
the bottom to hold a flat stick of the  
proper width and run it in. Shades  
that have become ragged at the bot-  
tom are often improved by cutting  
and rehemming. A screw-eye fastened  
into the center of the stick through  
the muslin will hold the cord.

In making a plain fruit cake, if the  
raisins and currants are warmed in  
the oven before mixing them in, they  
will not sink to the bottom in "that  
dreadful way."  
A very good pudding in which to  
use cherries is made by covering the  
bottom of a baking dish with the fruit,  
above this a layer of breadcrumbs and  
lumps of butter. Go on alternating un-  
til the dish is full, breadcrumbs being  
the top layer. Cover the dish and  
bake ten minutes more to brown the  
top. If the cherries are well sweet-  
ened beforehand, this is an excellent  
dessert with a hard sauce flavored  
with nutmeg.

Cocoa Macaroons.

Pass through a sieve, together, one  
cup of sifted flour, half a cup of gran-  
ulated sugar, two level teaspoonfuls  
of cocoa, half a teaspoonful of baking  
powder, one-fourth teaspoonful each  
of salt and cinnamon, one-eighth tea-  
spoonful each of cloves, mace, and nut-  
meg. With these mix the grated rind  
of an orange and one-fourth of a cup  
of chopped citron. Break one egg and  
the yolk or white of another into the  
mixture, add also a teaspoonful of van-  
illa extract, and mix the whole to a  
stiff dough. With buttered hands roll  
the dough into balls about the size  
of hickory nuts. Dip one side in gran-  
ulated sugar and set some distance  
apart in buttered pan, the sugar side  
up. Bake in a quick oven. The recipe  
makes eighteen macaroons.

Curried Left-Overs.

This is a family name for bits of  
mutton, lamb or veal which are too  
ragged to be served in any other way.  
They are first passed through a chop-  
ping machine and then mixed with an  
equal quantity of cold rice (boiled),  
and seasoned with pepper, salt and  
curry powder and a little chopped  
parsley or celery if it is at hand. Form  
into small cakes or croquettes, using a  
raw egg to hold them together; dip  
in egg, roll in crumbs and fry in deep  
lard. Any cold, cooked cereal can be  
used instead of the rice, although rice  
seems to lend itself to curries with  
peculiar appropriateness.

Egg Sauce.

Heap two tablespoonfuls of butter  
in a saucepan. When it bubbles, put  
in (all at once) two tablespoonfuls of  
flour and stir from the sides toward  
the center of the pan until the in-  
gredients are well mixed. Have ready  
heated a cupful of milk; add to this  
the "roux" gradually, and beat to a  
smooth cream. Season with pepper,  
salt, and heat into the thickened milk  
the yolks of two raw eggs and a little  
minced parsley. The white and yolk  
of a hard-boiled egg chopped fine may  
also be added.

Orange Cake.

Take the grated rind of one orange,  
two cups of sugar, whites of four eggs,  
and the yolks of five, one cup sweet  
milk, one cup of butter and two large  
teaspoonfuls of baking powder to be  
sifted through with the flour, lake in  
jelly tin. Filling: Take white of one  
egg that was left, beat to a froth, add  
a little sugar and the juice of one or-  
ange, beat together and spread be-  
tween the layers.

You can stop that cough right now if you take Cherry-Tolu. CORNER DRUG STORE.

A tickling cough, from any cause is quickly stopped by Dr. Shoop's Cough Cure. And it is so thoroughly harmless and safe, that Dr. Shoop tells mothers everywhere to give it without hesitation, even to very young babies. The wholesome green leaves and tender stems of a lung-healing mountainous shrub, furnish the curative properties to Dr. Shoop's Cough Cure. It calms the cough, and heals the sore and sensitive bronchial membranes. No opium, no chloroform, nothing harsh used to injure or suppress. Simply a resinous plant extract, that helps to heal aching lungs. The Spaniards call this shrub, which the Doctor uses, "The Sacred Herb." Always demand Dr. Shoop's Cough Cure. Sold by H. D. Thornton & Co.

### REST AND SLEEP.

Advice for the Tired Woman.

THE woman of the office or shop has more cause than the housekeeper to wear out in days like these. The housekeeper should find time for a nap; she can get into loose clothing, while the business woman must fight it out until the end of the day's work. The tired woman comes home from the office completely fagged out. She is nervous; she finds she cannot rest; she rolls and tosses through the night, a victim of insomnia. The housewife, perhaps the mother of a large family and doing her own housework, should take some little leisure in the middle of the day, if it only be for ten minutes. Slip away from cares and duties and throw yourself down on a lounge or bed for a little while. Try to relax every muscle until your body feels heavy. Then try and stop thinking; let your mind, throw off worry. For those ten minutes or half an hour, breathe perfectly still. This is the advice of the greatest woman's specialist of our time, Dr. R. V. Pierce, founder of the Invaluable Hotel and Surgical Institute at Buffalo, N. Y. Furthermore, he says, the woman who is employed in stores or shops, working at the highest tension all day, must above all things get a good night's rest. A tepid bath and a cup of cocoa or warm milk before going to bed, or perhaps a little light exercise, with the window open so that you breathe pure air, will act upon the nerves, quieting them and restoring the tired-out woman into the first sweet slumber which leads to a long, restful sleep. If such simple treatment, says Dr. Pierce, has no effect on the nervous system, then the woman should resort to some vegetable tonic which will soothe the nerves. If there is a headache, a backache, a sensation of irritability or twitching and uncontrollable nervousness, something must be done with the head or back, a woman

naturally says, but all the time the real trouble very often centers in the womanly organs. In nine cases out of ten the seat of the difficulty is here, and a woman should take rational treatment for its cure. The local disorder and inflammation of the delicate special organs of the sex should be treated steadily and systematically. Dr. Pierce, during a long period of practice, found that a prescription made up entirely of roots and herbs, without the use of alcohol, cured over ninety per cent. of such cases. After using this remedy for many years in his private practice he put it up in a form that would make it easily procurable, and it can be had at Dr. Pierce's Favorite Prescription have the most remarkable record of cures made by this world-famed remedy ever placed to the credit of any preparation especially designed for the cure of woman's peculiar ailments. Sick women, especially those suffering from diseases of long standing, are invited to consult Dr. Pierce by letter, free. All correspondence is held as strictly private, and sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y. Your medicines are certainly a blessing to suffering women," writes Mrs. Ella Sawyer, of 405 W. Pratt Street, Baltimore, Md. "I suffered with female weakness very badly, was extremely nervous at all times, had indigestion, could not sleep, constant dull headache—in fact, was very miserable when I began to take your medicines, but after taking them a short time I began to feel better. My nerves were better; could sleep at night, headache ceased, digestion was improved. I felt like a new woman, and could go around and attend to my household duties, which previous to taking your medicine I could not do. Dr. Pierce's Pleasant Laxative cured me of constipation of many years standing. I am sure if more women who suffer would take Dr. Pierce's medicines they would soon be convinced of the good they can do."

### Obituary.

Mrs. Bettie Parker, nee Coleman was born July 3, 1856, departed this life July 4, 1907, with that dreaded disease consumption. She was a consistent member of the Christian church from almost childhood. She was first married to Jessie Lassiter in February 1883, was left a widow with three little children for which she labored and cared for alone till July 17, 1890 she was married to John Parker, who by the faithful discharge of his duty, helped her to bring those little ones to manhood and womanhood loving and respecting him as a father. Her second marriage was blessed with 4 girls, the oldest 17 the youngest 9, may they ever remember her words of love and counsel and take her walk as a guide through life. She often, during the 8 months of her affliction, kissed her husband and children and told them to be faithful and live right and some day sooner or later they would all meet to part no more. All was done that human hands could do to restore her but to no avail, God knew best, Thy will be done. May he that doeth all things well comfort

the surviving family and friends that so faithfully attended her, and cause them to remember that she is not dead but only gone to that sweet rest that remaineth for the people of God. Funeral services were conducted at the grave by Brother Wright Wray after which she was laid to rest in the Mt. Pleasant cemetery. ELLA HAMLIN.

### Cured of Lung Trouble.

"It is now eleven years since I had a narrow escape from consumption," writes C. O. Floyd, a leading business man of Kershaw, S. C. "I had run down in weight to 135 pounds, and coughing was constant, both by day and by night. Finally I began taking Dr. King's New Discovery, and continued this for about six months, when my cough and lung trouble were entirely gone and I was restored to my normal weight, 170 pounds. Thousands of persons are healed every year. Guaranteed at H. D. Thornton & Co's. drug store, 50c and \$1.00. Trial bottle free.

### Obituary.

Lallie Futrell, son of Carter and Collie Futrell, was born Aug. 24, 1890, died Nov. 24, 1906. He professed faith in Christ at Mt. Zion church at the age of 16 and there he lived a christian life until the death angel took him to his home. He was always ready to do a kindness or lend a helping hand to those in need. He leaves a father, mother, four sisters and two brothers, and many relatives and friends to mourn his death.

Oh, how sad it is to say goodbye to Lallie, but it so sweet to know that after while if we will be faithful we will meet him again where there will be no more goodbyes. His foot steps will be seen no more on earth, his seat is vacant in his home which can never be filled, his tender words and bright smiling face is no more seen in the Sunday school, his voice is no longer heard but dear ones take courage he has only gone on before and will be at the beautiful gate waiting and watching for you, and in a few fleeting years trial of life will be over and there will be a reunion of friends.

Lallie, thou was mild and lovely, Gentle as a summer breeze, Pleasant as the air of morning, When it floats among the trees. He is now resting on the shining shore beyond, to wait and welcome the coming of loved ones and may his father, mother, brothers and sisters live faithful until death.

The bud plucked by angel hands from earth's garden will unfold and blossom forever in heaven.

Dear father, mother, brothers and sisters we say to you, weep not for him as though he had no hope, for he is not dead but is sleeping his sweet sleep in Jesus. He bore his affliction with christian fortitude never murmuring or complaining, he was ready to go and not afraid to go, which is a blessed thought for us. Brothers and sisters we say to you let us all live so as to meet Lallie up in heaven where there will be no suffering, no heart aches and no tears, for God shall wipe all the tears from our eyes. To those of you who are out of Christ we pray you to make no delay in preparing for death, you know not when it will come to you and may we all be ready.

We know it is hard to give him up. He has paid the debt which we all must pay, and of course you weep and we weep with you but God is a just God and doeth all things well. He will heal our heart's wounds, dry the tears from our eyes and carry us home to meet Lallie and all the friends and loved ones who have gone on before.

MYRTLE C. FUTRELL.

### All The World

is a stage, and Ballard's Snow Liniment plays a most prominent part. It has no superior for Rheumatism, stiff joints, cuts, sprains, and all pains. Buy it, try it and you will always use it. Anybody who has used Ballard's Snow Liniment is a living proof of what it does. Buy a trial bottle, 25c, 50c and \$1.00. Sold by Dale & Stubblefield and H. D. Thornton.

County Judge R. T. Lightfoot, of McCracken county, has come in for the attention of the night riders, because of his declaration that he had sworn in extra deputies and they would make it hot for anyone who attacked Paducah. In a letter received by him, and signed "Night Riders," he was warned that his tongue is too long and that they would get him if he didn't keep still. He does not know whether it is a joke of friends or the real thing.

Just write a letter and enclose a dollar bill and mention our names, when you want \$2.70 worth of Sanitol Toilet preparations. —DALE & STUBBLEFIELD.

### Resolutions.

Of respect and sympathy of our beloved sovereign and esteemed friend John F. Forrest member of Oak Grove Camp No. 213, Woodmen of the World, located at Cherry, Ky., who departed this life Jan. 22, 1908.

WHEREAS: God created us for a higher destiny than that of earth and that we are born for a realm where the rainbow never fails and.

WHEREAS: Life, as we call it, is nothing but the edge of the boundless ocean of existence and that a man is not completely born until he has passed through death and.

WHEREAS: The Great Consul Commander of the Universe who knoweth and doeth all things well has seen fit to take from us our beloved Sovereign John F. Forrest and has called him to that habitation whose builder and maker is God, we the committee wish to offer the following resolutions.

1st. That we extend to the bereaved and heart-broken family our sincere and deepest sympathy in this their sad affliction and that we as fellow sovereigns of the deceased offer such words of comfort and condolence as it is in our power to give and that we do all in our power to make this burden, which was so suddenly brought upon them, more easily borne.

2nd. That in the death of Sovereign John F. Forrest our camp has lost a true and loyal member and Woodcraft a faithful and most ardent supporter, and that we as members of Oak Grove Camp ever keep fresh in our memories the kind genial disposition, the high Christian ideals and the loyalty with which he served his chosen fraternity.

3rd. That we extend to the camps of Murray, Hazel, Cypress, Greenwood and all other visiting members of Woodcraft our appreciation and thanks for their presence and aid in the funeral ceremonies of our deceased sovereign, and especially do we want to thank Cypress Camp for the beautiful floral design presented on this occasion.

4th. That a copy of these resolutions be spread on minutes of our camps, that a copy be presented to the bereaved family and a copy be sent to The Murray Ledger for publication.

Com. A. G. CUNNINGHAM, L. B. HENDON, E. B. HOUSTON.

### Why Suffer From Rheumatism.

Do you know that rheumatic pains can be relieved? If you doubt this just try one application of Chamberlain's Pain Balm. It may not give you relief from pain but will make rest and sleep possible, and that certainly means a great deal to any one afflicted with rheumatism. For sale by Dale & Stubblefield.

Miss Lovie Rogers school closed at Wells school house last Friday with a public exhibition which was well attended. A splendid program was rendered and enjoyed by pupils and patrons. The enrollment this year was about sixty.

## REV. TROUTMAN SENDS BEST WISHES FOR PE-RU-NA

Rev. George A. E. Troutman, Mt. Washington, Mo., writes,

"My Wife and I Are Strong Believers in Pe-ru-na."

Catarrah and La Grippe.  
Rev. Geo. A. E. Troutman, Mt. Washington, Mo., writes: "My wife and I are strong believers in Peruna."

REV. GEORGE A. E. TROUTMAN

I was cured of a bad case of catarrh when nothing else that I tried had any effect. My wife was cured from a severe case of la grippe, and we feel that the least we can do is to gratefully acknowledge the merits of Peruna. "My wife joins me in sending best wishes for your success."

Throat Trouble.  
Rev. H. W. Tate, 929 Lincoln Avenue, Walnut Hills, Cincinnati, Ohio, writes: "For several years I have been troubled

with a peculiar spasmodic affection of the throat. It would seize me suddenly and for a few minutes I would be unable to speak audibly, and my breath would be greatly interfered with. I would be obliged to gasp for breath. "I finally concluded that it was some catarrhal affection which probably excited the spasm. It interfered with my vocation as a preacher, attacking me occasionally in the pulpit. "I had heard so much about Peruna as a catarrh remedy that I determined to try it. After taking two bottles, my trouble has disappeared. I feel sure that Peruna has greatly benefited me."

Rev. P. E. Swanson, Swedish Baptist Pastor, Box 228, Grandisburg, Wis., writes that from the use of Peruna he is perfectly well, entirely cured of chronic catarrh and catarrh.

### Peruna in Tablet Form.

For two years Dr. Hartman and his assistants have incessantly labored to create Peruna in tablet form, and their strenuous labors have just been crowned with success. People who object to liquid medicines can now secure Peruna Tablets, which represent the medicinal ingredients of Peruna. Each tablet is equivalent to one average dose of Peruna.

### Obituary.

Mrs. Belle Forward, daughter of John B. and Susie Turner. Born June 3, 1872 and died Nov. 25, 1907 aged 35 years 5 months and 22 days. She was married to C. E. Forward May 7, 1901. This happy union was blessed with 5 children and one dead. She professed faith in early life and was a member of the Missionary Baptist church at Westfork where she remained until death. She leaves a husband, father, mother, 5 brothers and 1 sister to mourn her death. This is the writing of her own hand until she grew so weak she could not write and asked a friend to finish the writing. The time is now drawing near for me to leave this cold world for my dear husband and my 4 darling children, never again to behold their sweet faces, it is hard oh how hard to leave them, but I go to meet my Savior and there to receive a crown of reward for my conduct. I love my husband who has been so kind, and so attentive to me through all my illness and has so graciously and cheerfully provided for my every want and necessity. May God bless him in a way by which he may be enabled to provide for those dear children and bring them up in the love and fear of God and may the angels of heaven so fill their hearts with the love of God, that many will hear their shout praises to him on high. Mother, father and brothers be kind to the children and Charlie, for he has been so with me help him with the children all you can. I want my 5 brothers to so live in this world that they can meet me around the throne of heaven. Her request was for Rev. J. T. Enoch to hold funeral services, which he did. The congregation to sing, "How firm a foundation," the young Mr. Edwards. "In the resurrection morn," Mrs. Luna Zeh. "How sweet it is to know that Jesus will be there," with addition to her request. God has taken from that home A voice so sweet and still,

There is a vacant place That never can be filled. It was sad indeed to give her up Their hearts are bleeding sore, But we all hope to meet with Belle

Here parting is no more. Remember dear husband Your time too, will come. To travel the same narrow path Your darling wife has gone. The children though small, they will miss her They will see her empty chair, Their home is so lonely Since mother is not there. To friends and other relation Death must come to all, So let us be prepared to meet her When comes that fatal call. A FRIEND.

### The Joy

of living is to have good health. Use Herbine and you will have bushels of joy. You need not be blue, fretful and have that bad taste in your mouth. Try a bottle of Herbine, a positive cure for all liver complaints. E. Harrell, Austin, Texas, writes: "I have used Herbine for over a year, and find it a fine regulator. I gladly recommend it as a fine medicine for Dyspepsia."—Sold by Dale & Stubblefield and H. D. Thornton.
